Traditional Engadine house from 1595, today it shines in a combination of history and modern style with a touch of its own.

The traditional Engadine house from 1595 was completely renovated in 2012. Located in the old part of the picturesque Engadine village of La Punt Chamues-ch, it is only a 15-minute drive from the St. Moritz ski area and offers shops and public transport connections in the immediate vicinity. The flat Ches'Ota with its own garden of 43m² has been built on three floors.

The spacious Ches'Ota flat has six bedrooms, each with its own bathroom/shower/WC. Four bedrooms have a double bed, one has two single beds and the last has a single bed. In addition to the six bathrooms, there is also a guest toilet on the first floor of the flat. Also on the first floor is the spacious living room with separate kitchen and TV corner. The garden can be reached from the kitchen door or directly from the outdoor area.

In addition, there are two parking spaces available for the flat in the internal underground car park.
